

Phakin Buddha

WEB DEVELOPER

PROFILE

A diligent and motivated senior in computer engineering with strong leadership, problem-solving, and critical thinking skills, seeking an opportunity to gain additional experience in the software development field.

EXPERIENCE

Yannix Co., Ltd. | Software and Pipeline Advancement *Summer 2023 (Internship)*

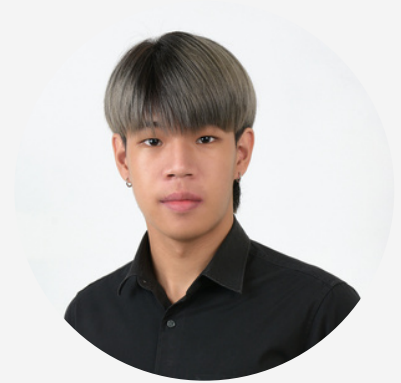

- Developed robust Python scripts to streamline the extraction of email data into an SQLite database. These scripts also automated the generation of tasks in the company's ERP system, relieving project coordinators from the process of manually parsing emails and creating corresponding tasks.
- Designed and implemented a user scheduling feature within the company's Vue.js chatting application, enabling employees to visualize participants' availability to improve the efficiency of meeting planning.
- Gathered user requirements, designed the user interface, and seamlessly integrated the scheduling feature, boosting efficiency and teamwork within the organization's communication platform.
- Participated in code reviews and provided constructive feedback to team members.

COURSES

- Software Engineering I & II
- Software Developer I & II
- Special Topics in Computational Science
- Data Science
- Artificial Intelligence
- Cloud Computing
- Computer Programming
- Database
- Software Architecture
- Computer Network
- Computer Security

EXTRA CURRICULAR ACTIVITIES

- President of Intania Football Club (IFC), Chulalongkorn University
- Head coach of Intania Football Club (IFC), Chulalongkorn University

EDUCATION

- **Chulalongkorn University**
Computer Engineering
2020 - Present
- **Kasetsart University
Labotary School (KUS)**
Math and Science
2008-2020

SKILLS

HTML CSS JavaScript
TypeScript Python C++ Java
Ruby on Rails React.js Vue.js Next.js
MySQL SQLite MongoDB
Express.js
Jest Robot Framework

INDUSTRY EXPERTISE

Frontend Development

Backend Development

Software Tester
