PROFILE

A diligent and motivated senior in computer engineering with strong leadership, problem-solving, and critical thinking skills, seeking an opportunity to gain additional experience in the software development field.

EXPERIENCE

Yannix Co., Ltd. | Software and Pipeline Advancement
Summer 2023 (Internship)

- Researched a machine learning model to detect malicious content in email messages.
- Implemented python scripts to extract email data into an SQLite database and generate tasks in the company's ERP system.
- Gathered requirements and designed a web-based application to visualize the company's ERP system data.
- Designed and implemented a user scheduling page in the company's Vue.js chatting application as a full-stack developer.
- Participated in code reviews and provided constructive feedback to team members.

COURSES

- Software Engineering I
- Software Engineering II
- Software Development Practice I
- Software Development Practice II
- Software Architecture
- Database System
- Computer Network
- Computer Security
- Data Science
- Artificial Intelligence

EXTRA CURRICULAR ACTIVITIES

- President of Intania Football Club, Chulalongkorn University
- Captain of Intania Football Club, Chulalongkorn University
- Captain of Satit Kaset Football Club, Kasetsart University Laboratory School
- President of Leadership Day Camp, Kasetsart Uni
- versity Laboratory School
- President of Leadership annual sales event, Kasetsart University Laboratory School
- Captain of Kasetsart Academy Football Club

EDUCATION

- **Chulalongkorn University**
  Computer Engineering
  2020 - Present

- **Kasetsart University Labotary School (KUS)**
  Certificate in Digital Marketing
  Completed in 2014

SKILLS

HTML   CSS   JavaScript   TypeScript
Next.js   Vue.js   React   Git   MySQL
MongoDB   XML   Ruby on Rails
ExpressJS   Robot Framework

INDUSTRY EXPERTISE

Front-end development

Back-end development

Software tester
